NOTIFICATION OF ILLNESS

Dear Parents/Caregivers,

I am writing to inform you that a member of our school is currently receiving medical treatment for a condition that results in a lowered immune system. This means that they are more prone to getting infections. Their medical condition is not contagious; however, it is a chronic illness and therefore it is important that they are able to participate effectively at school without any major limitations.

In order to prevent serious illness for this person, we respectfully request that if your child has a cold, flu or gastric virus, that they remain at home to fully recover from their illness before returning to school. If your child has measles or chicken pox, I ask that you:

- Seek medical treatment for your child
- Do not send them to school
- Notify the school office as soon as possible

As is our normal procedure, if your child is unwell at school they will be sent to sickbay. If required parents/caregivers will be notified and asked to come and pick them up.

We appreciate your understanding and support in this matter.

Ian Short
Principal
